catering for early childhood professionals

www.loxos.com
OUR EVERYDAY COMMITMENT

- UNDERSTANDING your needs
- DESIGN sustainable materials, environmentally friendly, ergonomic studies
- SAFETY for child and carer alike
- MANUFACTURED in France using 25 years experience
- INNOVATE everyday
- PROTECT our creations
A Loxos changing station is much more than a changing table or a work top.

It is the union of functionality and furniture design, the collation of practicality, security, hygiene and ergonomics...

A Loxos changing station is designed for the comfort of the children and their carers. It is an everyday work tool, with its unique and original conception allowing professionals to care for and change the little ones in comfort. A Loxos unit is designed for the wellbeing of child and carer alike.

For almost 25 years, Loxos has supplied hospitals, crèches, day nurseries, paediatric schools and all early childhood day care centers. The design and functionality of our stations is in response to specific and practical needs. We have over thirty registered models and have the ability to complete their layout with our custom-fit auxiliary furniture. We always strive to offer the complete solution for every installation.

Our ever inventive design department, master production team, rigorous support services and also our use of a bold colour palette for all models helps to ensure that Loxos remain the French market leaders.

Our success also lies on a tried and tested industrial know-how, an unmatched range of innovating products, and a rigorous and efficient quality of service.

The men and women working at Loxos strive to conceive, manufacture and supply products to you that are sustainable, efficient and above all useful.
Quality furniture, MADE IN FRANCE

CHANGE WORKTOP
• Resin single piece moulded surface for comfort and hygiene. Fireproof to French M2 rating.
• High resistance to cleaning and disinfection products
• Suiting care in nurseries, crèches & hospital environments.

CHANGE MAT
High density foam 30kg/m³ with PVC coated fabric, knitted finish. Waterproof. OEKO-TEX 100 label. Fireproof to French M2 rating.

FURNITURE
Melamine faced particle board, moisture resistant, essential in bathrooms. Fireproof to French M3 rating.

SANITARY FITTINGS
Health care industry standard mixer taps and pre-set thermostatic valves.

All models registered at WIPO.

ERGONOMICS
worktop: seamless moulding with soft rounded edges for comfort.

RECESSED WORKTOPS
to ensure changing mat stability

PRESET THERMOSTATIC VALVE
to provide anti-scalding security (38°C nominal) in the event of a cold water supply failure.

BATH
designed and sized to suit children’s age range.

EDGING solid ABS, coloured to match door colour choice, perfect long-lasting finish.

WIDE RANGE
of bold and pastel colours for doors and mats, to create harmonious colour schemes.
SOFT CLOSE on all doors to prevent trapping.

SAFE HYGIENIC UPSTANDS to protect children, in accordance with current recommendations.

STAIRS seamless moulding for ease of cleaning and disinfection.

LARGE MATS phthalate free coated fabrics, high quality upholstery, double stitched, excellent durability.

MIXERS TAPS* integrated flow rate regulator at 3 to 8 lpm allowing for a 50 to 80% water saving. *without handspray

HANDLES Curved door handles for a secure and comfortable grip.

DRAWERS fully enclosed runners with soft close action.

INCLUDED BENEFITS

- DELIVERY DIRECT TO ROOM (BY ARRANGEMENT)
- COMPLETELY PRE-EQUIPPED IN OUR FACTORY FOR QUICK INSTALLATION
- KICK STRIPS AND EDGING FINISHINGS PROVIDED ACCORDING TO YOUR PLANS

WARRANTY

5 YEARS

* See our Terms of Sale.
**EARLY CHILDHOOD RANGE**

**COMFORT SERIES**
Larger workstations with elegant curved shapes enabling care for one or two children. Ideal for all day nurseries.

- **LOXOS 1**
  - L 224 x D 106 x H 90 cm

- **LOXOS 2**
  - L 220 x D 90 x H 85 cm

- **LOXOS 3**
  - L 180 X D 90 x H 90 cm

- **GRAND ALPHA**
  - L 240 X D 100 x H 90 cm

**ESSENTIAL SERIES**
Comprehensive functional design, can be easily integrated into any room.

- **COMBI 220**
  - L 220 x D 85 x H 90 cm

- **COMBI 150**
  - L 150 x D 85 x H 90 cm

- **STANDCRÈCHE 220**
  - L 220 x D 90 x H 90 cm

- **STANDCRÈCHE 150**
  - L 150 x D 90 x H 90 cm

- **PÉDIACRÈCHE**
  - L 170 x D 95 x H 90 cm

**COMPACT SERIES**
Designed with smaller footprints but without compromise of function.

- **LOXOS CHANGE**
  - L 90 x D 90 x H 85 cm

- **ALPHA CHANGE**
  - L 100 x D 100 x H 90 cm

- **MINICRÈCHE**
  - L 130 x D 83/60 x H 90 cm

- **LOXOS BAIN**
  - L 130 x D 90 x H 85 cm

- **ALPHA BAIN**
  - L 140 x D 100 x H 90 cm

- **ORTHOCRÈCHE**
  - L 150 x D 100/52 x H 90 cm

All our models are registered at WIPO.
**MATERNITY/ACCOMODATION SERIES**
Smaller in design for installation in the more comfortable and intimate surroundings of a maternity bedroom but without compromising on user functionality.

- **ALPHAMAT**
  - L 65.5 x D 67 x H 90 cm
- **BETAMAT**
  - L 101 x D 67 x H 90 cm
- **OMEGAMAT**
  - L 135 x D 67 x H 90 cm
- **STANDARD 115**
  - L 115 x D 65 x H 90 cm
- **STANDARD 145**
  - L 115 x D 65 x H 90 cm

**NEONATAL & BIRTHING, ROOMCARE SERIES**
Designed for “four hands” care by parents and hospital staff. Ideal for modular installations.

- **NÉOLANGE**
  - L 150 x D 85 x H 90 cm
- **NÉONAT**
  - L 200 x D 85 x H 90 cm
- **STANDARD 175**
  - L 175 x D 65 x H 90 cm

**PAEDIATRIC SERIES**
Baths can be re-sized using a metacrylate plate to suit the child’s age. The large change areas allow for the care of a wider age range.

- **PÉDIABAIN**
  - L 130 x D 83/51 x H 90 cm
- **PÉDIABOX**
  - L 155 x D 83/42 x H 90 cm
- **PÉDIAMAX**
  - L 180 x D 88 x H 90 cm

**PMR SERIES**
- Variable height
- Height adjustable via remote control
- Surface profile bath design for newborns

Crèche La Farandole

66 places
3 areas: babies, toddlers and children installed with Loxos changing stations, complementary furniture, storage and small benches.
Well thought out & PERFECTLY FITTED AREAS

All Loxos solutions have been designed and produced to adapt to the functional and operational constraints of your rooms.

Custom-fit furniture complements our changing station range thus allowing you to plan out your perfect change area and make practical use of all available spaces.

Storage cabinets, doors, drawers, pigeonhole storage, box shelves, safety guards... and many other solutions help you to produce a made-to-measure changing area. Practical advice, sketches and 3-D drawings are offered to help visualise the final product. Special care is given to the finishing touches by preparing in our factory all in-fill pieces, adapted to suit your room.

Example of a bathroom equipped with a Loxos 2, safe hygienic upstands and complementary furniture.
43 units for accommodation
rooms, reduced mobility
rooms, nurseries, care and
paediatric room.

ENVIRONMENTAL INITIATIVE
LIFE CYCLE

PRODUCTION
All our furniture is manufactured with wood sourced from sustainably developed PEFC forests.

All our material suppliers comply with the REACH regulations, principle of precaution to prevent allergy risks linked to post-manufacture use of chemical substances.

All our waste is recycled in appropriate channels.

All our packaging is made of recycled or recyclable materials: wood pallets, cardboard, bubble-wrap.

TRANSPORTATION
In order to lower our carbon footprint, furniture delivery is organised with transporters working in groupage with intermediary platforms to limit delivery distance. Our carriers are ISO 9001 certified.

IMPLEMENTATION
The furniture is delivered and unpacked by the transporter who collects and recycles the packaging.

The furniture is prepared in our factory so that it will be a fast turnkey installation that will not interfere with your organisation.

LIFE SPAN
The panels used in our cabinets are moisture-resistant grade (E1) - this ensures an excellent life span for an intensive usage in a moist environment. They have a volatile organic compound level lower than 8mg /100gr, in accordance with current European norms.

The resin used combines sustainability, durability, flexibility and great use of cleaning. It can be repaired in case of impact and resists perfectly to liquid cleaning and disinfecting products. A yearly cleaning with polish is recommended to keep a smooth and bright surface. A repairing kit and cleaning advice can be supplied. Please contact your local agent.

All these qualities ensure that our furniture has a lifespan superior to 10 years in an intensive use environment.

END OF LIFE
In order to comply with a sustainable development philosophy, we have conceived our furniture so that it is easy to separate the worktop and the other components.

NORMS
2005/54/CE: European directive for Early Childhood

NF EN 12 221-1: changing tables for domestic use

REACH (Europe): prevention of allergy risks linked to post-manufacture use of chemical substances

NF P 01-010: environmental and sanitary quality of products used in construction.

Most existing norms aimed at childcare nursing equipment are for a domestic usage. Although we do not have to comply to them, we take into account all their recommendations, from hygiene to security and also for the design and the manufacturing of our furniture.

1.500 CHANGING STATIONS produced per annum,

2.500 M² of offices and manufacturing plant,

25 STAFF, including 12 in production,

1 TRADITIONAL WOOD WORKSHOP with 3 CNC machines:
- one pressure beam saw, HOLZER Cut Industry 6210,
- one edgebander, HOMAG PVC Profil line KDF 660,
- one processing centre, HOMAG Venture 21M,

14 FURNITURE ASSEMBLY STATIONS including cleaning and packaging,

2 QUALITY CONTROL STATIONS,

1 FINISHED PRODUCT WAREHOUSE with shipment dock,

1 TEST RIG using compressed air in the testing of all plumbing joints.
